Responding to the letter from the FEC dated July 30, 2014, asking for additional information, the National Corn Growers Association PAC has the following statement:

On the May monthly report filed, there were three errors relating to election period reporting for Brady for Congress, Schock for Congress, and Bill Foster for Congress. Upon close examination it was revealed that the checks were distributed to the three campaigns with the memo text indicating the appropriate election period; however the internal data entry had been done incorrectly resulting in an erroneous report to the Federal Election Commission (FEC). The data has been updated within the system, and an amended report has been filed with the FEC (filed August 14, 2014).

In order to avoid this problem in the future, NCGA staff working on entering data into the software system will be more thorough and diligent in comparing initial reports for funding with the report generated to file with the FEC each month.
